GETTING STARTED

The holiday excitement starts before they leave home with our **online planning tools**.

Once you've booked your clients holiday, they can use an incredible family of online tools — including an app* — providing recommendations to help them personalise their experience, both at home and on the go.

All their plans will be in one place on **their own profile page**. They can review, make and share plans by connecting to their travel group in **Family & Friends**. And access *MyMagic+* benefits like *FastPass+* service.

Personalise their experience — Complete their profile and provide a few details to tailor their experience online and in the Parks.

Keep everything in one place — Link tickets and reservations to their account, and their Disney Resort Hotel and dining reservations appear in their plans.

Link their Family & Friends — With everyone in the group added to their Family & Friends list, they'll be ready to make and share plans together.

Add to each day of the visit — View day-by-day plans, including dining reservations, Wish List items and *FastPass+* arrival window times for each day.

Get the mobile app — Filled with handy features, the new mobile app* lets them view and update their plans, make dining reservations, search Theme Park maps, get real-time attraction wait-times and more, once they're on holiday using the WiFi throughout *Walt Disney World*. No smart phone or tablet? No problem — They can access their plans in the Park kiosks or by talking to a Cast Member.

*Availability subject to device limitations and features may vary by device or service provider. Message and data rates may apply. Coverage not available everywhere. Under 18s must get parents' permission first.

BEFORE THEY GO

Pre-book experiences and attractions with ***Disney FastPass+* service!**

Disney FASTPASS Service has always been a great way to enjoy Disney attractions with little or no wait. But here's a new way to take *FASTPASS* fun a step further.

Not only can they get to the fun quicker, they can also reserve access to some select *Disney FastPass+* attractions and entertainment experiences before they even leave home. They can even make changes on the go — using the app on their mobile device or at in-Park kiosks! They'll discover more attractions than ever before to pick from. Plus, for the first time, they can even select fireworks and parade viewing areas, shows, Disney Character Experiences and more! And best yet, it's all included with Theme Park admission.

Fun, flexible and easy to use — Once they've got their Park tickets, they simply use the online planning tools to choose their *FastPass+* options. Once at the Park, they can join the queue at the *FastPass+* entrance during their arrival window.

Co-ordinate with their group — It's easy to secure the same *FastPass+* times for everyone in the group by connecting them in the Family & Friends list within the online planning tools.

Update at home and on the go — Make changes to their *FastPass+* selections online from home, or any time, anywhere using our mobile app*. They can even take advantage of WiFi in the Disney Parks.

FastPicks has something for them too — They can try a *FastPicks* recommendation to quickly add multiple *FastPass+* options to their plans.

Valid Theme Park admission and online registration required. *Disney FastPass+* attractions and entertainment experiences, the number of selections you can make, and available arrival windows are limited.
